

### ProFiller 1100 More Than a New Name! Changes shown below are versus the ProFill 100

- All Parts Automatic Dishwasher Safe
- Conversion Kit Eliminated & Orienter Base Common for Sizes 00-4
  - 25% Smaller & Lighter Design\*
- Ten frequent customer requests implemented

<b>1</b>	<ul style="list-style-type: none"> <li>• Locking Plate has domes to eliminate cap denting when filling coarse powders.</li> <li>• Stainless steel screws replace plastic screws to eliminate breakage.</li> </ul>
<b>2</b>	Orienter Base common for size 00-4, eliminating the need for a Conversion Kit.
<b>3</b>	Powder Tray Clamps Included.
<b>4</b>	Capsule Locker included for easy capsule locking & consistent capsule length.
<b>5</b>	Orienter change part connected with 2 horizontal screws instead of 4 vertical screws.
<b>6</b>	Locked capsule checker included.
<b>7</b>	Stainless Steel Caps Tray is automatic dishwasher safe.
<b>8</b>	25% lighter weight for customers who tap the filler during filling.
<b>9</b>	Tamper Pin diameter optimized. New range is 00, 0-1, 2-3 and 4.

<b>9</b>	Corner holes inside Powder Tray area removed from Top Sheet "c".
<b>10</b>	New Spacer Plate design prevents feet from falling out after repeated automatic dishwasher cleaning.
<b>11</b>	New Cam & "b" sheet design to prevent powder entry in cam area.

\* 25% lighter & smaller as Size 000 is reduced from 100 holes to 80 holes. Sizes 00-4 remain at 100 holes.

ProFiller 1100 machines are not compatible with the previous ProFill 100 machines. The change parts for a ProFiller 1100 cannot be used on the previous ProFill 100 or vice versa.
