

Salt-Durable Cream

A salt durable base with improved feel.

An elegant compounding base for topical compounded preparations that contain high percentages of active ingredients or preparations with multiple active ingredients.

Valuable features:

- Improved feel over traditional plo based delivery systems due to silogel component
- Cosmetically elegant appearance
- Time saving ready to use base
 - actives will not need pre-wetting
 - no additional thickening agent needed

This base has been validated in vitro with up to eight active ingredients in one formulation.*

- Call Letco Medical Professional Services at 877-LETCORX for additional information
